

Dear Faculty & Administrators,

Saving students money on their course materials and supporting their academic success is a priority for all of us. By providing them with the correct materials at the most affordable prices, we can ensure they are prepared for their first day.

Requests submitted allows us to research your selections and ultimately allows us to find and stock the best cost-savings options available.

Textbook rentals continue to be the most popular choice for students followed by used books. When you submit adoptions by the due date, it allows us to guarantee the largest selection of rental and used titles available. Last year, we were able to offer a rental option on more than 80% of titles available, saving students up to 80% off the new textbook price.

Please email all textbook information for any classes that you are teaching summer or fall, and we will work on getting those titles ordered. AIP is live for the Community College of Denver campus, and we are finalizing steps to go live with your institution soon.

Please note: Fall adoptions are due June 10, 2022
